## PROJECTS

### [bVideo.ai](#) — *React.js | TypeScript | MUI | Lumen | REST API*

AI Video Making Platform. Successfully developed from scratch, frontend, and backend. One of the hard challenges was the user's multi-plan subscription management and payment gateway integration.

### [QFOOD](#) — *React.js | Next.js | TypeScript | Tailwind CSS | JWT*

A food delivery service platform. From scratch, led the team and solved all of the complex UI challenges like maps, and food menu navbar.

### [UNB](#) — *Laravel | React.js | Tailwind CSS | MySQL | Redis*

Re-Developed, Query and Performance Optimization, Redis cache, etc.
